REASONS FOR ALLOWANCE

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Each of the references cited on the PTO-892 discloses an optical disk drive and apparatus for discriminating optical disks.

The following is an examiner's statement of reasons for allowance: the prior art of record considered as a whole fails to teach or suggest either:

1) an optical disk apparatus, comprising: means for radiating a laser beam onto an optical disk; means for receiving the laser beam reflected from the optical disk and outputting a reflection signal having an intensity corresponding to the amount of reflected laser beam; and means for comparing the intensity of the reflection signal with a threshold value and detecting occurrence of defocus of the pickup when the intensity of the reflection signal is lower than the threshold value, **detection of occurrence of defocus and determination of the type of the optical disk being performed by means of sequentially varying the threshold value**; or

2) an optical disk apparatus, comprising: a pickup for receiving light reflected from an optical disk and outputting a reflection signal corresponding to the amount of reflected light; an RF processing circuit which amplifies the reflection signal output from the pickup and outputs an envelope signal of the reflection signal as a focus signal; **a processor which detects occurrence of defocus by means of sequentially comparing the focus signal output from the RF processing circuit with a plurality of threshold values and determines the type of the optical disk as at least any of a CD-ROM or CD-R, a low-reflectivity CD-ROM or CD-R, or a CD-RW; and a controller for adjusting a gain of the pickup, a gain of the RF processing circuit, and a gain of a focus servo circuit in accordance with a result of determination.** (bold/underlined language emphasized)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Huber whose telephone number is 571-272-7588. The examiner can normally be reached on Compressed Schedule, every Friday off.
